

## CAD/DRAFTING COMPETITION

NAWIC's annual CAD/Drafting Competition will be held on **Friday, April 16<sup>th</sup>** at the new office of DPR Construction located at 5010 Shoreham Dr., San Diego.

We expect about 25 student competitors from Construction Tech Academy, La Costa Canyon High, Lincoln High and Santana High School along with some of their classmates who will observe the competition. Students will arrive at DPR's office in the morning at approximately 10:00 a.m. The judges will arrive at 8:30 and immediately start the judging and scoring process.

DPR's staff will give a LEED presentation as well as a tour of their new LEED Platinum Sustainable Design Office Building and a BMI demonstration. Lunch will be served following the tour.

### What do we need to make this a successful event?

(1) We are seeking financial sponsors to help offset the cost of the prizes and other competition costs. We would appreciate your help in contacting architects, engineers, contractors, developers, insurance/bonding companies, and others to support this exciting event. **Myrna Smith** is coordinating the fund-raising. Please let her know if you have contacts with potential sponsors.

(2) We are looking for a **sponsor** for lunch. We will be serving approximately 30-50 people. DPR is providing beverages and paper products, but we need a food sponsor.

(3) We provide a "goody" bag for each student, so we are looking for **give-away items** that you may have in your company or otherwise have access to. We will prepare approximately 30 bags and are looking for pens, pencils, hats, note pads, t-shirts.....

(4) **Sherry Yarbrough** is compiling a list of judges for the event. Please forward any names of potential judges to her and she will contact them with the details.

With your help we can make this the most exciting CAD/Drafting Competition yet!
